Meeting Purpose and Content

Please provide a brief statement of the meeting's purpose and a concise overview of its content in the form of a bulleted list: see public posting of CJMC Meeting Agenda ([link here](#))

Identify issues that the League may want to follow for further study or advocacy:

Development of a subcommittee whose task is to make recommendations for formation of a committee whose function is to improve communication and relationships between police ordinary citizens, as well as make recommendations to the County Board for improved function of law enforcement in La Crosse County.

Note any additional comments or feedback regarding this meeting:

Special guest [Gary Tyler](#) had words favorable for the formation of a committee dedicated to improved law enforcement through better relations of officers with citizens in the county by rebuilding trust and retraining officers' approach to enforcement.

Steve Doyle updated CJMC on progress with development of subcommittee described above in issues to follow.
